**Engagement:** 46 QR scans across 5 offices · 6 code redemptions to Fri 2027-01-22, per the brand (day-30 check Thu 2027-02-11).

## What we learned

- Office D placed a day late and drew the fewest responses; agree a placement time at intake.
- Four people found it gone by the time they looked.
- Salt level came up in comments more than once.

**Recommendation** Renew into offices A, C and E at the founding price. Same card.

### Limitations

Each number is a separate step, counted as stated, and none of them is a sale. Delivered: our count at handoff. Placed: units visible in the placement photo; an office may hold some back for later. Depleted: from photos or the pantry owner's count by day 5; one person may take several, and sharing and disposal are invisible. Tuesday headcount: a range the office reports; not everyone visits the pantry. Survey responses: anonymous and self-selected, from small samples, so one answer can move a share by several points. A QR scan is curiosity, not intent. Code redemptions: reported by the brand; some of those people would have bought anyway. Retailer sales, where shown, are confounded by everything else that happened that month and are suggestive only. Incremental purchases were not measured, so this report does not show whether the campaign caused any sale.
