What we learned

- SAMPLE Office J reached four responses, under the five it committed to.
- SAMPLE Chips ran out by day 3 in four offices.
- SAMPLE Fill level of the bag came up once.

Recommendation

SAMPLE Renew with 20% more units for the four offices that ran out.

Limitations. Each number is a separate step, counted as stated. Delivered: our count at handoff. Placed: units visible in the placement photo; an office may hold some back for later. Depleted: from photos or the pantry owner's count by day 5; one person may take several, and sharing and disposal are invisible. Tuesday headcount: a range the office reports; not everyone visits the pantry. Survey responses: anonymous and self-selected, from small samples, so one answer can move a share by several points. A QR scan is curiosity, not intent. Code redemptions: reported by the brand; some of those people would have bought anyway. Retailer sales, where shown, are confounded by everything else that happened that month and are suggestive only. Incremental purchases were not measured, so this report does not show whether the campaign caused any sale.
