**Re: Distribution network study - Savannah / Jacksonville / Charleston**

Dear Marcus:

Ridgeline will assess Tidewell's three-site distribution network and recommend the future footprint, including whether to consolidate branch inventory into the Savannah DC. The study is a single project delivered in three phases:

- Phase 1 - data collection and baseline cost-to-serve: \$30,000
- Phase 2 - scenario modeling: \$24,000
- Phase 3 - final recommendations: \$30,000

Our fixed fee of \$84,000 is billed on completion of each phase. Travel is included. The engagement ends on delivery of the Phase 3 report; any implementation support would be a separate engagement.

Regards,
