# SOP · SAMPLE-model-courier · Tue 2027-02-09

Delivery model **courier**. Window Tue 2027-02-09 to Tue 2027-02-16 (day 1 to day 5). Report due Fri 2027-02-19, debrief Wed 2027-02-24, redemption check Thu 2027-03-11. Business days skip weekends and US federal holidays; this date passed the drop-day check.

| Date | What | Who | Log it in / tool | Done |
|---|---|---|---|---|
| Tue 2027-01-19 **T-15** | **By** Brand says yes: send the campaign agreement (legal pack file 10, Part 1 from the campaign row), the invoice (tools/make_invoice.py) and the certificate request (file 11), and ask for the allergen sheet, logo, two card sentences, discount code or landing page, the unused-product election and the newsletter choice. Latest date that still leaves five business days to pay before T-10. | you | campaigns row (tier, offices, terms); invoices row · make_invoice.py | ☐ |
| Tue 2027-01-19 **T-15** | **By** Ask each office on the route about this brand (template 01). An office's first three drops need its explicit yes; after that, notice at least five business days ahead and it comes unless they say no. | you | approvals rows: asked_date · make_messages.py approvals | ☐ |
| Tue 2027-01-19 **T-15** | **By** Offices whose building wants our certificate (coi_required yes or unsure): request it from our carrier at least 10 business days before that office's first drop (legal pack file 12), only once general liability is bound. | you | offices: building_coi_status, building_coi_date | ☐ |
| Tue 2027-01-26 **T-10** | **By** Payment lands in the business account: log paid_date and paid_amount on invoices. Founding: due within five business days of the invoice and before shipping; standard: the first 50% on signing. Five business days late: you decide whether to cancel and refund (file 10, section 3). | brand | invoices: paid_date, paid_amount_usd, method, bank_reference | ☐ |
| Tue 2027-01-26 **T-10** | **By** Brand's certificate in: the five-minute check in legal pack file 11. Tick coi_check_ok on brands. If the policy ends before 12 months after the window, diary the renewal certificate. | you | campaigns: coi_received_date; brands: coi_check_ok, coi_policy_end_date | ☐ |
| Tue 2027-01-26 **T-10** | **By** When campaigns shows ship_release RELEASED (payment, agreement, certificate, every office approved), send the ship-date email (template 02) the same day. Never confirm a ship date on HOLD. | you | campaigns: ship_release · make_messages.py ship_release | ☐ |
| Tue 2027-01-26 **T-10** | Hard ship-by and cancel-by date (T-10). Approvals due. If T-10 to T-5 crosses 18 to 31 December, brands were asked to ship earlier (ship_by_requested). | brand | approvals: reply, reply_date | ☐ |
| Tue 2027-02-02 **T-5** | Receive and count the day cases arrive (by T-5 at the latest): count against the packing list, best-by at least 60 days after T, lot numbers, damage; photograph the cases. Reject what fails and tell the brand the same day. Check the allergen line on the card text word for word against a package in your hand. Short shipment: reduce units per office evenly (units_override) and tell the brand. | you | inventory: received (lot, best_by), rejected; issues | ☐ |
| Tue 2027-02-02 **T-5** | Send the brand the card text before printing (brand agreement section 1): two sentences, allergen line, buy line. | you | campaigns: card_proof_sent_date | ☐ |
| Wed 2027- | Make each campaign's survey form (forms/survey-form.md) and, if the brand chose it, its newsletter sign-up form. Paste the prefill | you | campaigns: survey_form_url, survey_prefill_template, newsletter_form_url · make_links.py | ☐ |

| | | | | |
|---|---|---|---|---|
| 02-03 **T-4** | template into campaigns. Then make the links and QR codes and import them into the link tool. | | | |
| Thu 2027-02-04 **T-3** | Not arrived (founder, courier) = slip exactly one week (tools/opscal.py slip) and tell every office and the brand today (template 12). Otherwise print cards and labels (make_kit.py; qr-check.txt must say all OK), test-scan every card, and send each office its window and Slack post (template 03). | you | stops: slack_post_sent_date; costs: kit · make_kit.py; make_messages.py t3 | ☐ |
| Fri 2027-02-05 **T-2** | Courier: confirm the booking and send the route sheet (make_route.py). Send building certificates ahead where required. | you | drops: courier_or_van · make_route.py | ☐ |
| Mon 2027-02-08 **T-1** | Text each pantry owner to confirm (template 04). Pack one labeled case per office per brand against the kit checklist; bag and label the reserve. Print the route sheet. Charge the phone, load the hand truck. Read every link's total after your test scans and log it as the baseline. | you | stops: confirm_text_sent_date; scans: baseline · make_route.py; make_messages.py t1 | ☐ |
| Tue 2027-02-09 **T** | Drop day, 8 to 11 am: route in order; 'on my way' 20 minutes out (template 05); the per-stop procedure on the route sheet. Courier: you meet the courier at every first-drop office. Log everything the same day. | you or courier | stops: arrival, departure, handed_to_role, outcome; inventory: delivered; photos; counts: placed; issues; hours: drop_day · make_messages.py on_my_way | ☐ |
| Wed 2027-02-10 **T+1** | Placement confirmation to each brand (template 06): the offices placed by today, each with its photo. Office not placed by today: credit note row and refund or take it off the balance ($120 founding, $150 standard). Standard: issue the balance invoice today. | you | invoices: credit_note, standard_balance · make_messages.py placement_confirmation; make_invoice.py | ☐ |
| Thu 2027-02-11 **T+2** | Day 3: ask each office for a count (template 07); top up from reserve where empty; nudge any office under five responses. Read the links (mid). | you and office | counts: remaining_day3; inventory: topped_up; scans: mid · make_messages.py day3 | ☐ |
| Tue 2027-02-16 **T+4** | Day 5: last photo and count (template 08); collect leftovers (brand chose return) or leave them (release). At the end of the day turn off 'Accepting responses' on every campaign survey form and read every link total (close). | you and office | counts: remaining_day5; photos: later; inventory: collected or released_to_office; scans: close · make_messages.py day5 | ☐ |
| Wed 2027-02-17 **T+5** | Newsletter (only where chosen): send the ticked addresses once (template 09), delete the unticked responses today, log the count only. Reconcile stock: reserve and leftovers on hand. Ask for the return label (brand chose return). | you | campaigns: newsletter_passed_date, newsletter_passed_count, newsletter_unticked_deleted_date · make_messages.py newsletter | ☐ |
| Thu 2027-02-18 **T+6** | Pick three comments word for word (replace names with [name removed]), write three 'learned' lines and the recommendation on the campaign row. | you | campaigns: comment_1..3, learned, recommendation | ☐ |
| Fri 2027-02-19 **T+7** | Report (make_report.py) to each brand with template 10; standard: after the balance is paid. Office summaries to each office. Log report_delivered_date. | you | campaigns: report_delivered_date · make_report.py; make_messages.py report | ☐ |
| Tue 2027-02-23 **T+9** | **By** Ten-minute debrief with each office (templates/debrief-office.md). Log the date and the one-question answer. | you and office | stops: office_debrief_date, office_would_do_again · make_debrief.py | ☐ |
| Wed 2027-02-24 **T+10** | Brand debrief, 20 minutes (templates/debrief-brand.md); send the renewal proposal the same day. Export actuals for the financial model (export_actuals.py) and set Actuals in = Y there once money, costs and hours are final. | you and brand | campaigns: debrief_date, brand_would_buy_again, renewed; hours: reporting_debriefs · make_debrief.py; export_actuals.py | ☐ |
| Tue 2027- | Ten business days after the window: no prepaid return label = unused reserve to roster offices, collected leftovers back to their | you | inventory: returned_to_brand / given_to_roster_office / released_to_office / | ☐ |

| | | | | |
|---|---|---|---|---|
| 03-02<br>**T+14** | own office or disposed (brand agreement section 9). Stock on hand must be zero. | | disposed | |
| Thu 2027-03-11<br>**+30 cal** | Day 30 (calendar): ask the brand for code redemptions (template 11). Log them; export actuals again; update renewed. | brand | redemptions; campaigns: renewed · make_messages.py redemption; export_actuals.py | ☐ |
| Fri 2027-03-19<br>**+30 cal** | Thirty days after passing the list on: delete every response in the sign-up form, the form itself and the sent email; empty the trash. Log the date. | you | campaigns: newsletter_deleted_date | ☐ |
| Fri 2027-03-26<br>**+30 cal** | Founding brands only, if we delivered everything in section 1: the short written statement is due (brand agreement section 3). | brand | campaigns: notes | ☐ |
| Wed 2028-02-16<br>**+365 cal** | Twelve months after the campaign: delete the campaign's survey tab, the form's responses and the form. Log the date. | you | campaigns: answers_deleted_date | ☐ |
