Evidence: two photos per office Photos received: placement 10 of 10, later 9 of 10. All of them are on page 2.

Survey **Responses 77** · Tried it 58 of 77 (75%) · Average rating 4.0 of 5 (57 ratings) · Would buy: yes 31 (42%), maybe 29 (39%), no 14 (19%) of 74 who answered · Did not try: didn't see it 7, not for me 5, gone by the time I looked 7

> "SAMPLE I grabbed two on Tuesday and they were gone by lunch on Wednesday, which tells you something. The paprika flavor is strong in a good way, though a couple of people on my team said it was too spicy for them in the afternoon. I would buy these if they were at the Whole Foods on Union Square, but I looked on Thursday and could not find them on the snack aisle, so maybe the card should say which aisle or shelf."

> "SAMPLE Honestly I did not know what the QR code was for until a coworker told me it was a survey, so I almost skipped it. The bag was a good size for one person and it did not leave crumbs all over my keyboard, which matters at a desk. I liked that the card said who makes it, it felt less like an ad. I would like a less salty version, and I would pay about what I pay for chips at the deli downstairs."

> "SAMPLE Not for me. The texture was dry and it stuck to my teeth, and I usually want something sweet around three. But our office manager put them right next to the coffee machine and they went fast, so I think placement is half of it. Two of my teammates asked where to buy them and nobody could remember the store name from the card, so a bigger store name might help people who walk past it every day on the way home."

Three of 23 comments, copied word for word; any name removed. Comments are not linked to an office.

Engagement: 103 QR scans across 10 offices · 14 code redemptions to Fri 2027-02-19, per the brand (day-30 check Thu 2027-03-11).
Retailer velocity, the brand's own data, suggestive only: SAMPLE The brand reports its distributor data shows the Union Square store sold 31 units in the two weeks after the drop against 22 in the two weeks before; other promotions ran that month.

What we learned

- SAMPLE Offices F and H ran out before day 5 even after the day-3 top-ups, so units should follow Tuesday headcount more closely next time.
- SAMPLE Seven people said it was gone by the time they looked, so supply rather than interest limited trial in at least two of the ten offices.
- SAMPLE Several people read the QR as a reorder link; the card could say three questions, twenty seconds, and name the store aisle.

Recommendation

SAMPLE Renew into offices A, F and H with about 20% more units each and add two new offices near Union Square. Keep the card but add three questions, twenty seconds beside the QR, and ask the store to confirm the aisle so the card can name it.

Limitations. Each number is a separate step, counted as stated. Delivered: our count at handoff. Placed: units visible in the placement photo; an office may hold some back for later. Depleted: from photos or the pantry owner's count by day 5; one person may take several, and sharing and disposal are invisible. Tuesday headcount: a range the office reports; not everyone visits the pantry. Survey responses: anonymous and self-selected, from small samples, so one answer can move a share by several points. A QR scan is curiosity, not intent. Code redemptions: reported by the brand; some of those people would have bought anyway. Retailer sales, where shown, are confounded by everything else that happened that month and are suggestive only. Incremental purchases were not measured, so this report does not show whether the campaign caused any sale.
